

METRO Skylights & Roofing Services

Ventilation Pricing

All of our Ventilation systems are Australian Standard Certified and are made from the highest quality materials and come with manufacturer warranties of up to 15 years.

SUPAVENT

250mm wind driven high efficiency polycarbonate roof vent. The vent is aerodynamically designed for ultra high operating efficiency even in light wind conditions to exhaust heat from the roof space of a home. It can withstand severe wind and rain conditions and meets the Australian dynamic rain penetration standard. Suitable for all roof types.

Supavent prices - ALL ROOF TYPES single storey

Supplied and installed including GST and 15 years manufacturers warranty.

1 x unit only	\$ 297.00
2 or more Units each	\$ 275.00

EDMONDS AIROMATIC 24Volt DC

Dual purpose powered ventilator with sensing inverter speed control technology- 3 fixed speeds reduces condensation & improves efficiency of ducted air conditioning-quiet operation. 5 years manufacturers warranty.

Supplied and installed inc GST. \$ 627.00

GREEN-VENT SOLAR ATTIC EXTRACTION FAN

Reduces heat build up in the roof space in the summer and removes moisture in the winter. The solar panel and fan motor have up to 25% more power than other fans. Advanced design provides more efficient attic ventilation while using no electricity. One fan can ventilate up to 1250 square feet of attic space, reducing the energy needed to keep your house cooler in summer.

GREEN VENT SOLAR ATTIC EXTRACTION FAN 30 WATT FOR ALL ROOF TYPES

Includes a 12 volt environment control system and high powered solar panel for greater performance in low light levels-environment control system. Supplied and installed including GST and a 10 year housing, components and 1yr motor warranty.

\$ 902.00

VENT A ROOM SYSTEM PRICE FOR ALL ROOF TYPES

Supplied and installed with GST

1 x Unit \$ 550.00

Aluminium Eaves Vents

Supplied and installed with GST

1 x each \$ 22.00

Price Variations on all the above ventilation

- Easy access double storey add \$ 88.00 to the prices above.
- Steep metal roof if the roof pitch is over 30 degrees add \$ 88.00 to the prices above.

GREEN VENT WIND INDUSTRIAL WIND DRIVEN VENTILATORS

Vertical vanes and light weight aluminium construction allow very low torque resistance extracting air at the lowest of wind speeds. Polluted air is replaced by fresh air-reduces risk of structural deterioration of building components-Eco friendly.

Installed pricing does not include roof access hire of scissor lift etc. Prices are for under ridge mount installation.

Mid roof penetrations price on application.

Prices include GST

GVW 300 CS \$ 462.00

GVW 600 CS \$ 825.00

GVW 900 CS \$ 1,375.00

PLEASE NOTE: All prices are subject to change without notice. The prices shown in here in our online skylight price list and ventilation price list are subject to price increases beyond our control by our suppliers without notice. We also reserve the right to correct misprints and will always notify you before charging you more than the prices in our online price list.
